History

At the end of the 19th century, Frédéric Lebouc's great-great grandmother, Marie-Olympe Brière produced objects that were mostly for everyday use in a workshop in Limoges.

She took the forward-thinking decision to send her son, Frédéric Legrand, to study in England. On his return to Limoges in 1904, he founded Legrand et Cie, a porcelain business that he ran successfully until he left for the front line. When he returned from the First World War he diversified into electrical accessories, as porcelain was, at the time, the most widely used electrical insulator.

His daughter, Paule Legrand married an engineer from the Arts & Métiers institution in Paris named André Lebouc who ran Legrand until its closure during the Second World War.

In 1949, André Lebouc and his son Hugues opened the Poral factory, a test porcelain factory that was ground breaking as much in its modern manufacturing processes as its avant-garde labour conditions. It was the first factory to open after the war, and was inaugurated by high-ranking officials. It was also the first business of its kind to receive public and private financial support.

At the end of 1953, André and Hugues Lebouc created the porcelain decoration company Legle France, and in 1963, the porcelain tile company Les Carreaux de Limoges. Hugues Lebouc, who was both pioneering and a visionary, went on to refine porcelain decoration techniques adapting the most modern processes.

Frédéric, son of Hugues and grandson of André Lebouc, took the helm after the death of his father in 2000.

Just as in Marie-Olympe's workshop all those years ago, the extremely skilled craftsmen at Legle France continue to seduce using materials and colours. Ceramic artists and glaziers work with the same meticulousness, perpetuating prestigious craftsmanship.

Fire and Earth

For seven generations, the Legle Legrand Lebouc Company has been passing skills and expertise down through the family in Limoges, where they continue the old artisan traditions to this day. These traditions are now in the safe hands of Frédéric Lebouc and his team.

This tradition stretches back a long way, but does not stand in the way of breakthroughs and flashes of inspired innovation. Here masterful technique and visual beauty come together in the very best of contemporary creative design.

From complete mastery of the kiln-firing process to the careful incorporation of precious metals, LEGLE accepts nothing less than the best. This is why they've been awarded the "Living Heritage Company" label. ("Entreprise du Patrimoine Vivant")

Porcelain is born of the earth, offering a unique, sensual contact which stimulates emotions through sight and touch. Here, Legle France is the messenger between you and the clay, using fire to imbue the mineral with life and soul and releasing its very essence. While the forms may, by their very nature, be restricted, the themes are limitless and the colour pallet is unmatched. It is this hedonistic beauty, which turns tables and the very act of hosting guests into an art of its own.

Imagination and originality are the guiding forces behind this underlying search for new wonders and surprises for the client, the final link in the chain of creation. It is their demand for the truly unique that supplies the creator with the crucial spark of inspiration.

Ennobling your home, your table and your guests for your truly special moments: this is the Grail that Legle France can offer anybody who, through the elements of earth and fire, seeks to possess a moment of eternity.

The hands and eyes of skilled crafts people
are at the heart of Legle France

A simple dinner plate is the canvas for a chef to manifest his artistic creation. Legle France porcelain is designed to bring out the best of inspiration in each chef.

INFINI Collection

Eastern Philosophy, Modern Sensibility

Born through the fires of the kiln with inspiration drawn from ancient elements and philosophies of prehistoric China, RUYI personifies a timeless meeting place, an elegant showcase of ancient culture interpreted with a modern sensibility.

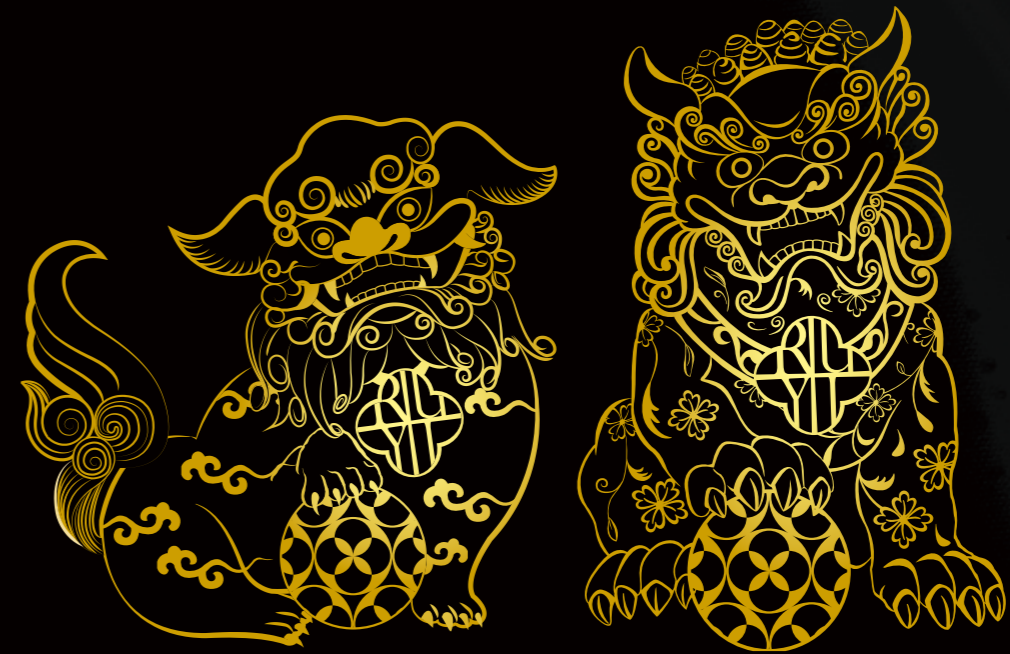

An eminent tableware brand, our fine china collections are lauded by the most discerning gastronomic luminaries the world over.

Eastern Philosophy, Modern Sensibility

Echoing philosophy, artistic theory with essential cultural attributes, our collections are expressions of aesthetics, synthesized with the perfectly formed and functional – for the contemporary.

Our brand guardians are a pair of Foo Lions. Symbols of power, they promise to protect all, just as our international team headquartered in Asia, aims to ensure our clients' needs are always surpassed.

Enter the Realm of RUYI ...

Where creation pays homage to the wisdom of the ancients
Where design embraces aesthetics and functionality
Where artfully curated prestige porcelain collections
will forever be treasured

Collection - INFINI

A tribute to the ancient adage "the only thing that is constant is change".

Our creative expression focuses on the Yin and Yang binary play, encapsulating:

Fluidity
Free form
Floating energy

The greatest form is without shape
This is the Tao of the cosmos

—*Dao De Jing ch. 41, Laozi*
(Ancient Chinese Philosopher)

Rims and shapes are designed in an organic,
free form style to showcase movement and energy,
the Qi of life.

Embracing Contrast and Balance
Enveloping the Infinite Connection of the Universe.

Floating Energy
